

**Global Finance
Solutions USB | PayPal
| Wallet System:
Secure, Simple, and
Bank-Free**

Overview

**Our USB Wallet system
gives you complete, bank-
free control over your**

SOcial NETwork COins.

**It pairs the tangibility of a
physical device with
advanced encryption,
ensuring your tokens
remain solely under your
authority.**

Security & Control

- **Encrypted USB Storage:** Tokens are stored as encrypted code on a USB stick with industry-leading encryption.
- **Unique Transaction Hash/Code:** Every transfer ties to a unique on-chain transaction hash, your password, and full transaction history.
- **Self-Custody Guarantee:** Without the USB stick, password, and hash, no one can access, move, or spend your coins.
- **Direct Peer-to-Peer Transfers:** Banks and brokers are excluded—payments flow directly between you and our network partners.

How It Works

- 1. Insert your USB stick into your computer.**
- 1. Launch the portable wallet app and unlock it with your password.**
- 1. Pay your SO-NET-CO via PayPal.**
- 1. We send your SOcial NETwork COin tokens directly to the wallet on the stick.**
- 1. Carry the stick or open the same wallet app on your phone or computer to spend at partner sites.**

A full, detailed guide is available for download on our website.

Value Preservation

- **Blockchain-Pegged Value:** Your coin's value always matches the amount you paid, as permanently recorded on-chain.
- **20-Year Minimum Value Guarantee:** We guarantee this value for at least 20 years, offering reliable long-term preservation.
- **Real-World Asset Backing:** Leveraging our investment expertise, your funds are invested in tangible assets.
- **Flexible Liquidity:** You may sell your coins anytime on any platform at prevailing market prices.
